A BABCOCK POWER RENEWABLES COMPANY

COMPANY OVERVIEW

Renewable Concepts, a Babcock Power Renewables Company, is part of the family of companies known as Babcock Power Inc., providing innovative, high quality steam generation and energy-related products and services to the power generation and processing industries. Whether working for you independently or together in tandem, each shares the same set core values of safety, integrity and quality, as well as one common purpose — to provide outstanding service to every customer, and meet or exceed every expectation on every project.

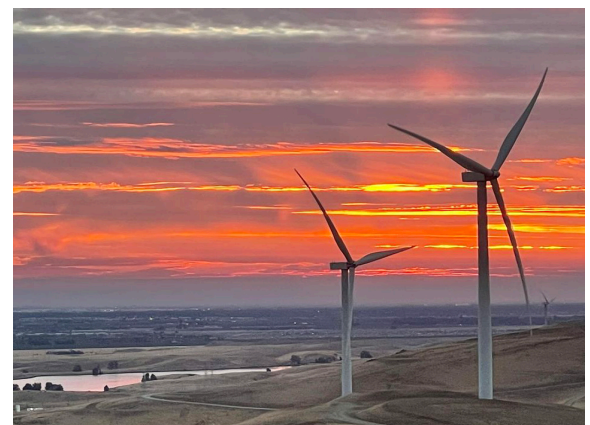

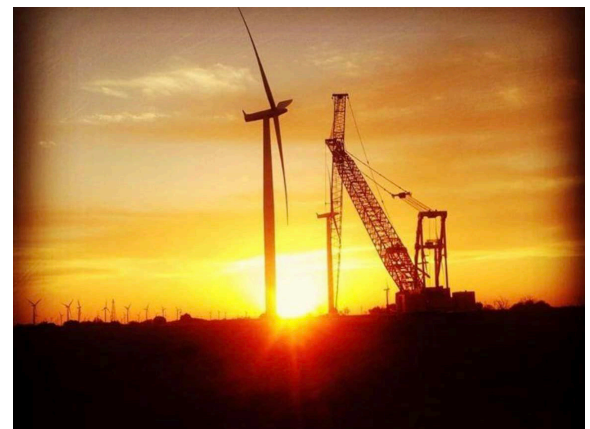

WHO WE ARE

Based in Neodesha, KS, Renewable Concepts provides nationwide rapid-deployment technical workforce solutions to help address the changing demands of the renewable energy industry.

Coordination of top talent to task and rapid response expertise are two elements that set Renewable Concepts apart from other service providers in the industry.

WHAT WE OFFER

Our seasoned service teams have worked the full spectrum of wind services projects—from initial development and planning to final turnover and project management services. Renewable Concepts' service lines currently include General Services, Large Correctives, Welding Services, Engineering, and Fabrication.

A BABCOCK POWER RENEWABLES COMPANY

WIND ENERGY GENERATION AND SERVICE SOLUTIONS

WHY CHOOSE US

Renewable Concepts is a solution-focused company. Our strategic niche is in matching talent to task. Because we are flexible and easily scalable, we can adjust our recommendations to the specific needs of each client. Whether projects are large or small, every customer can count on us to provide top professionals from all disciplines within the industry.

OUR GOAL

Through integrity and hard work, our team offers the highest quality service and solutions for our customers. We know that having a big board or a group of private investors would make it difficult for us to stay flexible or cater to our clients' specific needs. That's why Renewable Concepts has remained small at heart, even as we've grown, evolving from a family-owned business into a national leader in wind energy generation and service. The way we see it, reputation is paramount to everything. Our biggest goals are simple and straightforward: to exceed the performance of our competitors and to always exceed our clients' expectations.
