

# A NOTABLE SOURCE FOR PRESERVING THE ENVIRONMENT

## PROVEN GEO SOLUTIONS

Geo-Synthetics Systems, Inc. has offered quality geo-solutions since 1971, having worked hard to excel as a leader in the environmental industry and has withstood the test of time, surpassed by no one in experience, service and product offerings. GSI is recognized and respected as a full-service company, offering distribution, fabrication and installation services nationally.

**The high level of expertise and capabilities sets us apart in the industry.**

Behind every GSI product and service is a promise to deliver you the best our industry has to offer.

### UNMATCHED CAPABILITIES AND BENEFITS

Our slitting, seaming and re-rolling capabilities enable us to tailor products to fit exact needs and specifications while our large, centrally located facility allows guaranteed quick shipments to any destination.

At GSI, we pride ourselves on our service. In addition to our well-trained customer service professionals, you may rely upon our products specialists located throughout the United States. Whatever your needs or wherever your site is located, GSI is positioned to serve you.
